EXPERIENCE (2+ Years)

Headsup Corporation | **Jul 2024 - Present**

Software Engineer I

- Completed advanced courses in React.js, Node.js, and Tailwind CSS through Udemy, leveraging these skills to contribute effectively to company projects.
- Spearheaded the development of key internal projects, such as a UI Clone and Voting App, utilizing both frontend and backend technologies to deliver high-quality solutions.
- Contributed to open-source repositories as part of company initiatives, improving team collaboration and adhering to best practices for clean, maintainable code.

Equipped Analytical Intelligence - Noida | **Mar 2023 - Oct 2023**

Software Engineer I

Project - Minerva (Minerva, enables clients to collect, compile, analyse and better understand data in order to help them make important decisions and ultimately produce superior returns for their investors.)

Technologies - React JS

- Designed and executed comprehensive test plans to identify software vulnerabilities and bugs.
- Utilized Agile methodologies to manage project timelines and deliverables efficiently.
- Collaborated with other developers in designing solutions for customer requirements.
- Led small development teams, overseeing project progress and mentoring junior engineers.

ClickValley Technologies OPC Private Limited - Delhi | **Jun 2022 - Dec 2022**

Software Engineer

Technologies - ReactJS | JavaScript | Node.js | Express.js | MongoDB | Mongoose

- Worked as a **Full Stack Developer**, on website and gave it a new 'look and feel' with fully responsive and custom-designed pages. Being a **Node.js** project, used **Express.js** to create the server and routes for pages. Used **MongoDB** and **Mongoose** for the databases. Wrote **Vanilla CSS** to give it a custom feel and used **CSS Flexbox** and **Media Queries** to make it highly responsive. Added the functionality using **Vanilla JavaScript** and **Axios** to send from data asynchronously.

DataTrained Education - Noida | **Sep 2021 - Apr 2022**

Software Development Intern

Technologies Used: React | JavaScript | HTML | CSS

- Worked as a **Frontend Developer**. Created reusable **React components** from HTML themes. Made navigation using **React Router**. Used **Redux** to manage complex states. Worked with **Figma** designs to create custom sites using **Vanilla CSS** and **JavaScript**.
